

Brian's First Site

I am taking this course as a requirement for the Web Development Certification. Essentially, I want to get out technical support and into something that involves more creativity. I hope to learn many new valuable skills to advance my career.

Brian's Hobbies

Reading & Writing

In my spare time I enjoy reading Marvel and DC comics and books that are Fantasy Science Fiction. I also writing my own Fantasy Science Fiction stories, critiquing movies and video games, writing children's stories, and poetry. Lastly, I love reading and writing about the new discoveries in Astronomy and Archaeology.

Family Time

My family is my life. Everything that I do is meant to enhance the quality of life for them. During family time, my wife and I enjoy taking the kids to the park, being outdoors, and getting fresh air. We love reading books to the kids and getting them involved with toys that inspire building, molding, and creativity.
